WORK EXPERIENCE

Defence Research & Development Organisation (DRDO), PXE Chandipur — ***Internship (On-site)*** **17 June 2026 –17 July 2026**

Project: Upper Air Sounding System - Monitoring System — MERN, Real-Time Systems,

- Developing a Web Application using the MERN stack for centralized, real-time monitoring of upper-air sounding data.
- Built a responsive visualization interface with LAN, serial/cable, and simulated data collection modes graphing for operators.
- Integrating Socket.IO for real-time communication between the backend and frontend.
- Organizing the backend using MVC architecture with authentication, authorization, and data validation.
- Testing the system using simulated telemetry and preparing it for integration with actual hardware.

PROJECTS

WanderLust — ***Node.js, Express.js, MongoDB, Mongoose, EJS, JavaScript, REST APIs*** | **Project Link**

- Developed a full-stack property listing web application using Node.js, Express.js, EJS, MongoDB, and Mongoose, implementing complete CRUD functionality for property listings.
- Built RESTful routes and server-side rendered pages with EJS, while using Mongoose for database modeling and Joi for input/schema validation
- Implemented reusable middleware, session-based functionality, asynchronous error handling, and responsive UI components to provide a reliable and user-friendly web application.

TECHNICAL SKILLS

- **Languages:** JavaScript, Java, Python, C++,SQL
- **Web Development:** Node.js, Express.js, React, EJS, REST APIs, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Databases & Tools:** MySQL, MongoDB, Mongoose, Git, GitHub, VS Code,
- **Core CS Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Operating Systems, Database Management Systems (DBMS), Computer Networking.

EDUCATION

Trident Academy of Technology (BPUT) — *B.Tech in CS&IT* - **(CGPA: 7.73)** **2023 – 2027**

KD International School (Rajdhanwar, Jharkhand)— *Class XII (Intermediate)* **2021 – 2023**

Redwoods English School (Jeypore, Odisha)— *Class X (Metriculation)* **2019 – 2021**

ACHIEVEMENTS & CERTIFICATIONS

- **Smart India Hackathon (SIH):** Participated in the competition, engineering innovative software solutions for real-world problem statements.
- **Certifications:** Python & Java Master Backend & Frontend Development (Udemy) | TCS iON Technical Communication | Geo-data Sharing & Cyber Security (ISRO / IIRS).
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- **Languages Known:** English, Hindi, Odia.
